6TH SENSE 60CM Multifunction Pyrolytic Oven

FEATURES & BENEFITS

6TH SENSE READY TO COOK

Ready to cook allows up to 20%* energy and 25%* time saving since there is no need to preheat the oven. The intuitive 6TH SENSE programmer automatically sets the right function and proposes a temperature range for 6 commonly cooked food categories.

PYROLYTIC SELF CLEANING

The cleaning process that uses super high temperatures of 500°C, to turn food residue and grime into ash. This cleaning process is convenient as it requires minimal effort. Once the oven is cooled, it's very easy to wipe the small amount of residue ash with a wet sponge and then dry with a microfibre cloth.

FAN FORCED AIR COOKING SYSTEM

A quick and easy cooking method that doesn't require pre-heating. The fan distributes hot air evenly to all parts of the oven and even allows you to cook different foods simultaneously without mixing taste or smell.
