

8.5 kg A.I-Personalised QuickDrive™ Front Load Washer (WW85T984DSH/SA)

Topline key features / benefits

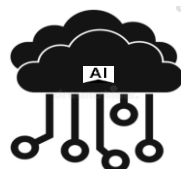

1. QuickDrive™ Technology
2. Personalised A.I settings
3. AI-Wash w/ Auto-Dispenser
4. Steam Cycle²
5. AddWash™ Door
6. BubbleWash™ and BubbleSoak™
7. SmartThings & Wi-fi compatible
8. 39 min Super Speed Cycle
9. Simple Troubleshooting
10. Drum Clean

Key features & message hierarchy

Full clean performance in half the time¹

QuickDrive™ Technology reduces the washing time by up to 50%¹ whilst providing great cleaning performance. Its unique main drum and back plate rotate independently, ensuring clothes move dynamically and are washed quickly and gently.

Make your everyday wash smarter and more personalised

Laundry day can be less of a chore using your AI-Pattern for the most preferred and frequently used settings. It helps save time with personalised display via machine learning that reflects changes in your lifestyle, usage pattern and seasonalities.

Remove up to 99.9% of certain bacteria² with Steam Cycle

Use the power of steam to sanitise and clean your clothes with advanced steam cycles that reduce up to 99.9% of certain common bacteria.

Add forgotten items mid-wash³

Missed an item? The AddWash™ door lets you simply and quickly add forgotten clothing or fabric softener after your wash cycle has started. You can also easily pop in hand-washed clothes that you just want to rinse or spin dry.

Cleaning that's hard on dirt but gentle on clothes

BubbleWash™ is designed to generate foam by pre-mixing detergent with air and water from the beginning of the cycle. And BubbleSoak™ is an optional pre-wash treatment that thoroughly soaks clothes in bubbles before the wash starts to help ensure a thorough clean.

DISCLAIMERS

1. Compared with previous Samsung WW6500K. Saves up to 50% time on Cotton (40C, half load), based on testing conducted to IEC 60456:2010. Cycle duration may vary depending on the water supply and weight/type of laundry.
2. Based on third party testing conducted on Staphylococcus aureus and E coli, January 2018.
3. Add Door can be opened at any time if drum water temperature is below 50°C and has stopped spinning.

More on built-in "smarts" – A.I & SmartThings

**Personalised wash cycles**

With AI-Pattern, your preferred washing cycles will be learnt, remembered and displayed according to frequency of use via Machine learning which kicks in after the first 10 washes⁴ and cycles displayed based on the last 25 washes.

**Personalised display panel**

AI-Personalised Panel is designed to display your most frequently used wash cycles at the top, making it easy for anyone to use the washing machine. It can also curate your cycle options via My Cycle on the machine and SmartThings.

**AI-Wash**

Get the best washing results with less waste and effort. AI Wash uses 4 types of sensors to sense the laundry's weight and level of soiling, and optimises the amount of water, detergent and rinsing time. The 'Auto dispense' is easy to refill, even using high-viscosity detergents.

**Take the guesswork out with Auto Dispense**

Auto Dispense saves you time and effort to load detergent and softener after every wash for up to 1 month of washing. It automatically dispenses the appropriate amount of detergent and softener so you don't have to worry about soap residues. The detergent tank is also detachable for adding powder detergent manually if needed.

**Real-time wash optimisations with SmartThings⁵**

Plan your day to suit you and not your washing machine. With intelligent location based recommendations, you can start, stop and set the optimum wash cycle with SmartThings app.

**SmartThings - Your Personal Laundry Assistant⁵**

Get the most from your washing machine. 'Laundry Recipe' acts as your personal laundry expert and recommends the optimal wash cycle while the 'Laundry Planner' curates your daily laundry schedule to help manage finish times. With the 'Home Care Wizard' help maintain your machine's optimal performance by remotely identifying problems and providing quick troubleshooting service.

Additional key features & benefits

**Powerful cleaning in 39 mins with Super Speed Cycle⁶**

No time to waste? The Super Speed cycle now cuts the time of a 5Kg wash to just 39 minutes. QuickDrive™ technology helps save time by moving clothes dynamically. The rinsing time is also shortened using a Speed Spray and accelerating the spin speed.

**Smart Check for easy troubleshooting⁷**

Easy troubleshooting from your smartphone. The Smart Check is an error-monitoring system to detect and diagnose problems and provide easy troubleshooting solutions, direct to your phone. So depending on the problem, it can help save you time and avoid the inconvenience of unnecessary engineer callouts!

**Drum Clean for easy maintenance**

With the push of a button, heat and water (70°C) combined with high-speed RPM helps to sanitise and reduce dirt or detergent residue that collects on the inside of the washing machine drum.

DISCLAIMERS:

4. Before 10 washes, the list will remain in its default sequence. Cycle suggestions continuously evolve according to usage patterns.

5. Available on Android and iOS devices. A Wi-Fi connection, a Samsung account and download of Samsung SmartThings app are required. Data charges may apply.

6. Based on Super Speed at default settings with a 5kg load

7. Requires internet connection, compatible device and download of Samsung Smart Home app. Data charges may apply. Available on Android 4.0 / iOS 8 or later.

SPECIFICATIONS
